## PRODUCT SHEET

### STRUCTURES

This bridge system is supplied as a 'flat pack'; it can be sent by post and assembled on site. Like the real thing its own weight is substantial giving it enormous strength and stability. Multiple TDB-1 spans can be joined (as shown above) with a TR-1 trestle at each join.

Pictured - two Trussed Deck Bridge Spans (2 x TDB-1) and one Trestle (1 x TR-1).
